

JESSICA GILLAM

Graphic Designer & Creative Mark Maker

ABOUT ME

I am a graphic designer with a passion for visual storytelling and bold impactful design. I believe in creating with intention and putting meaning into everything I design, even the smallest details. Process and research are vital to driving all of my design choices and keep me inspired to continually find new solutions to challenges.

I like my work to have attitude, truth and sometimes even a dash of humour. I am fascinated by the power of design to communicate meaning and connect people across boundaries. Typography, branding, package design and conceptualization are particularly important to me. Aside from my love for design I am also an avid gamer, super nerd for all things TV and Movies (especially horror!) and enjoy working with pen and ink. I am also currently in the process of developing my illustrative style and exploring applying it to design.
